Silvana Nile
NSW Senate
Lead candidate

1. Zero Tolerance for Domestic Violence

We will support our communities to provide front line services such as safe and accessible housing for men, women and children affected by domestic violence.

2. Zero Tolerance for Child Pornography

Statistics indicate that the average length of imprisonment for NSW child pornography offences is 12 months.

The CDP will lobby for an increase to much harsher penalty to anyone involved in Child pornography and child sexual assault cases. CDP will support various Child Abuse Support programs such as Bravehearts.

3. One Law for all Australians - No Sharia Law - No Sharia Courts

The CDP upholds that the standard of law should remain solidly grounded and consistent with those on which our national identity and culture were founded upon, while ensuring equality for all.

4. Freedom of Religion

CDP supports the right of Christian schools to continue to teach Christian doctrine in their curriculum and to freely choose the staff they wish to employ. CDP believes these important privileges are critical to retaining and protecting the Christian ethos upon which these schools were founded. CDP will lobby to pass Fred Nile's Religious Freedoms Act.

5. Pro-Life - No Abortion - No Euthanasia

Abortion: We affirm that human life begins at fertilisation, and therefore should be given legal protection throughout all stages of pregnancy, including up to birth.

Euthanasia: Euthanasia (regardless of method) is a deliberate act to end a patient's life. We oppose euthanasia, whether active (such as with an injection) or passive (such as by withdrawing food and water), whether voluntary (with the consent of the victim) or involuntary (without the consent of the victim).

My name is Silvana Nile and I am running for the Australian Senate. As a mother and school teacher I care deeply about the future of Australia but the values that have made this nation great are under threat. Your Vote today will determine much about our countries future in the years ahead.
