

Is this the way Australia now WANTS to do life?

- With...** Drunkenness, drug addiction and gambling running rampant and out of control?
- With...** "Same sex" marriage replacing traditional marriage?
- With...** Australians being encouraged to promote promiscuity, adultery, homosexuality and LGBTIQ often deemed to be the norm?
- With...** Domestic violence, pornography, youth suicide and marriage collapse as well as juvenile delinquency and crime in general at historic and alarming levels?
- With...** At least one woman (on average) murdered every week by her current or former partner through domestic violence.
- With...** Thousands of innocent and defenseless babies being slaughtered by merciless abortions/as well as late term abortions?
- With...** Euthanasia very possibly becoming law in this Nation?
- With...** Free speech laws in overreach prompting unreasonable emotional responses resulting in unreasonable restrictions on free speech?
- With...** Religious freedom being threatened despite Christian principles featuring in the Australian Constitution's preamble and being part of our National Heritage?

If anyone claims Australia has progressed morally and ethically in the past 50 years, they are blind and deceived.

Yes, Australians have improved financially and materially, but again - and given the above, is this how Australians now want to do life?

Silvana Nile and the Christian Democratic Party will fight vigorously for basic human and Christian values and rights to remain or be restored.

"Give us back our Country" will be her motivating catch cry and her mission.

The Commonwealth of Australia was established on Christian principles and the Christian Democratic Party believes that successive Federal, State and Local Governments across Australia have a responsibility to uphold the Christian principles at the root of our National heritage.

If you agree, let's together, "Start a New Era" and do life better again!

Vote 1 Silvana Nile (CDP) for the Senate

Silvana Nile
NSW Senate
Lead candidate

1. Zero Tolerance for Domestic Violence

We will support our communities to provide front line services such as safe and accessible housing for men, women and children affected by domestic violence.

2. Zero Tolerance for Child Pornography

Statistics indicate that the average length of imprisonment for NSW child pornography offences is 12 months.

The CDP will lobby for an increase to much harsher penalty to anyone involved in Child pornography and child sexual assault cases. CDP will support various Child Abuse Support programs such as Bravehearts.

3. One Law for all Australians - No Sharia Law - No Sharia Courts

The CDP upholds that the standard of law should remain solidly grounded and consistent with those on which our national identity and culture were founded upon, while ensuring equality for all.

4. Freedom of Religion

CDP supports the right of Christian schools to continue to teach Christian doctrine in their curriculum and to freely choose the staff they wish to employ. CDP believes these important privileges are critical to retaining and protecting the Christian ethos upon which these schools were founded. CDP will lobby to pass Fred Nile's Religious Freedoms Act.

5. Pro-Life - No Abortion - No Euthanasia

Abortion: We affirm that human life begins at fertilisation, and therefore should be given legal protection throughout all stages of pregnancy, including up to birth.

Euthanasia: Euthanasia (regardless of method) is a deliberate act to end a patient's life. We oppose euthanasia, whether active (such as with an injection) or passive (such as by withdrawing food and water), whether voluntary (with the consent of the victim) or involuntary (without the consent of the victim).

My name is Silvana Nile and I am running for the Australian Senate. As a mother and school teacher I care deeply about the future of Australia but the values that have made this nation great are under threat. Your Vote today will determine much about our country's future in the years ahead.
